January 2023 to Present: Software lead (IT Department), DNA Laboratories Sdn Bhd – IT device migration, IT request, Excel VBA programming, Lab eOrder SIT, SharePoint administrative works, new LIS project and data housekeeping.

- Reduced Customer Care Department operator's workload by 50% in reporting & emailing by creating 3 Excel VBA Workingfile consisting of 3000 lines of VBA-code, integrating events/tasks between LIS, local shared server
- Reduced Lab Service's workload by 50% in verifying reports by creating Excel VBA automation, consisting of 300 lines of code, applying version control, providing user training, and performing debugs and code improvements
- Reduced 20% internal clerical error in Sample Registration and reduced TAT of outsourcing test by implementing inter-company eOrder system, collaborating with Singapore IT executives, using system automation, performing data-mapping, and SIT

March 2020 to Present: Marketing Assistant Manager (Sales and Marketing Department), DNA Laboratories Sdn Bhd – Managing social media accounts and creating content, including festive greetings, awareness posts, and educational content. I handled gift orders, design, and delivery, prepared quality reports, managed the company website, and organized virtual events.

- Created 5 dynamic product/panel search Webpage for client and internal usage within budget, by using Visual Studio Code, HTML, CSS, and Javascript with 11,000 lines of codes, systemized with an update process using Excel automation
- Generated RM26,000 in revenue from a targeted Product Digital Marketing Campaign within the allocated budget in a 6-month period, by collaborating with an external expert, translating assets into Chinese, and measuring converted clicks/views
- Organized 150,000 Incoming COVID Samples by developing a system and managing incoming COVID samples' quantity, regulating the workload of lab and demand from clients, setting cut-offs, and providing live-forecast Excel lists for Sales

January 2020 to December 2022: LIS Project Manager (Sales and Marketing Department), DNA Laboratories Sdn Bhd – Routine tasks including communicating with the LIS developer, gathering internal requirements, and overseeing feature quality. I also managed data maintenance and integrations and evaluated developer performance, addressed internal LIS system issues.

- Completion of 20 report customization, 7570 total lines of code, for new LIS system by collaborating with Software developer, debug codes using Visual Studio Codes in HTML, CSS, template filled with multiple conditions, and advanced data-mapping

January 2020 to March 2020: Clinical Science Liaison (Sales and Marketing Department), DNA Laboratories Sdn Bhd – Routine tasks involved analyzing data and presenting statistics to internal Sales Representatives. I offer technical information to Sales Representatives and collaborate with the Technical and Lab teams to gather additional information.

- Conducted efficient daily morning Online meetings by developing SOPs, setting up the system, keeping minutes and records for ISO purposes, and making sure meeting messages were clearly conveyed during COVID lockdown

January 2019 to December 2019: Lab Assistant Manager (General Screening Lab), DNA Laboratories Sdn Bhd – Managed tasks like monitoring and ordering stock, and ensuring instrument maintenance schedules were met. I prepared monthly quality reports, reviewed test worksheets, and maintained lab records. I'm also involved in training new lab personnel for these tests.

- Reduced task load and clerical mistakes by creating VBA Excel for Lab routine maintenance and system integration
- Trained staff for Screening Lab operations (Staff promoted from Junior to Senior Exec)
- Reduced Manager's KPI report procedure from 2 days to 3 hours by developing Excel templates with formulas

January 2016 to December 2018: Lab Executive (Next Generation Sequencing Lab), DNA Laboratories Sdn Bhd – Handled routine tasks like monitoring stock and maintaining instruments. For NIPT testing, I worked on two NGS platforms, handling DNA extraction, library prep, sequencing, and data management. I correspond with vendors for abnormal case confirmation, verify results, and publish reports in LIS system.

- Migrated NIPT Lab Testing from one platform to another by performing validation and inter-lab parallel test
- Upkeep laboratory water system for Lab, outdoor filter by maintaining water system, providing SOPs and training to Lab staff.

Previous Working Experiences:

- July 2015 to December 2015: Junior Lab Executive (General Screening & Molecular Lab), DNA Laboratories Sdn Bhd
- January 2015 to June 2015: Customer Service & Internal Process Executive, DNA Laboratories Sdn Bhd
- February 2014 to December 2014: Editorial Assistant (Publication Department), Persatuan Soka Gakkai Malaysia (NGO)

Educational Background: BSc (Honours) Major in Microbiology, Universiti Putra Malaysia, 2010
